

CA 360 Project 3: **What Am I Cute For?** By Tracey Ho

My idea is about how the viewers would describe me as being cute. So that's why I wanted my viewers to try to give answers to address me of how mature or sexiness I can be with my adorableness, and the looks, beauty and charm that comes to me. For example, why am I always cute? Or how do I dress up so sexy? Why do I wear makeup? The paper scroll drawing is the body of me to describe me as a person and how the relationship relates to my appearance of being pink. I chose pink because it brings memories as a child till now for many generations, because I brought up love and passion. The round painting canvas is a picture of Hello Kitty's face that represents her adorableness to people's hearts because she brings happinesses, joy and the popularity, also she brings into famous products and brand names. So that's why I adore her as my mascot buddy. The cue cards are for the viewers to try to write feedback on this exercise.

Cue Cards:

Viewers including staff and TAs must try to write down answers of any topics or categories that they can think of and stick it to the scroll paper. No right or wrong answers.
